Harold Weisberg;

I recently obtained George Lardner, Jr.'s May 19, 1991 article in the Washington Post (Outlook) regarding the Oliver Stone film. The article stated the following:

> "Weisberg flew to New Orleans, holed himself up in the DA's office and wrote a lengthy report demolishing Boxley's claims."

Do you still have a copy of that report. Is it possible for me to get a copy of the report? It would be willing to pay all costs.

The article also identified several Garrison suspects as follows:

> "From there, the plot thickened. Neighbors identified one of the men in the celebrated "tramp photo" as someone who lived right across the hall from the man who was--or wasn't--Perrin!"

Do you know who these people were (ie: The man who wasn't Perrin; The neighbor Garrison thought was one of the tramps; The other tramps which Garrison was planning to arrest)?

Do these people tie in to the various reports by Garrison, Gandolfo and Richard E. Sprague regarding the identification and recording of "Frenchy" by the HSCA investigators led by Fenton?

Paul Hoch referred be to you regarding my search for documents concerning a possible Chicago assassination plot on Nov. 2, 1963. I am looking for the FBI and Secret Service files regarding Thomas Vallee and any other alleged plotters in Chicago. Do you have copies of these reports? If so, are you will to make copies if I cover all of you costs?

Thank you for your assistance.

Respectfully,

Bill Adams
